

/datadisk/bbubu/home  
/self/bbubu/projects  
/deregnet/src/usinglemon.hpp

```
graph TD; A["/datadisk/bbubu/home  
/self/bbubu/projects  
/deregnet/src/usinglemon.hpp"] --> B["lemon/smart_graph.h"]; A --> C["lemon/adaptors.h"];
```

The diagram illustrates a file structure. A top box contains three file paths. Two arrows point from this box to two separate boxes below, each containing a file name. The left arrow points to 'lemon/smart\_graph.h' and the right arrow points to 'lemon/adaptors.h'.

lemon/smart\_graph.h

lemon/adaptors.h
